QUESTIONS AND THE SCORING INSTRUCTIONS

Contractor: ____________________________________________

Score: ___________________  Pass: ______  Fail: ______

The scorable questions arise in three different areas:

(I)  Essential Requirement/Exception(s);

(IIb)  History of the business and organizational performance;

(IIc)  Compliance with occupational safety and health laws, workers' compensation and other labor legislation; and

(III)  Completion of recent projects and quality of performance.

Note: Not all questions in the questionnaire are scorable; some questions simply ask for information about the contractor firm's structure, officers and history. This document includes only those questions that are "scorable." The question numbers in this document are the numbers used in the questionnaire. Thus, the questions included here begin with question number 6, and there are a few breaks in the numerical sequence.

The Scores Needed for Prequalification

To prequalify, a contractor would be required to have a passing grade within each of the four large categories referred to above.

For Section I, Contractor must have no exceptions (yes to questions 1-5 and no to questions 6-9) "History of the business and organizational performance,"

WUESD recommends use of a passing score of 53 on this portion of the questionnaire (of a maximum score of 76 on this portion of the questionnaire).
For Section IIc, Compliance with occupational safety and health laws, workers’ compensation and other labor legislation a passing score is 37 on this portion of the questionnaire (of a maximum score of 53 points on this portion of the questionnaire).

Section III, Completion of recent projects and quality of performance, includes a series of questions about recently completed construction projects. WASCO ELEMENTARY SCHOOL DISTRICT requires this section to be completed. An incomplete list may subject the contractor/subcontractor to be disqualified even though all other sections are rated with a passing evaluation. The District considers this section to contain subjective information not consistent with the Public Contract Code 20101 (b), requirements of objective rating criteria. The District reserves the right to use their information and to interview references to support its rating and final evaluation.

Scoring of previous projects completed:

For pre-qualification for a single project that may require specific skills and capabilities, public agencies may choose to score contractors for the number of similar projects completed, and the degree of similarity between past projects and the planned project. DIR has not suggested any scoring for this aspect of the pre-qualification process, because of the numerous possible variations in both the type of project to be built and the points of similarity between the pending project and past projects that may be significant to the public agency.
